

# Redefine Power. Redefine speed. Redefine Endurance.

Warn Industries is set to revolutionize the winch world. We've developed a product with more stamina than any other winch of its kind. More power. More speed. More endurance. This is no ordinary winch: This is the WARN® Endurance 12.0. With a unique remote-mounted fan-cooling system, this winch gives you 12,000 lbs. of pulling power with an amazing duty cycle, fast linespeed, and exceptional reliability. When you want a winch that'll really go the distance, you want a winch with serious endurance: The WARN Endurance 12.0.

Sealed contactor is highly reliable; provides excellent duty cycle

Winch sealing for maximum water resistance

Stainless Steel hardware

Remote-mount cooling fan sends air into the winch motor for increased performance and duty cycle
